Sushant Chiplunkar
SENIOR FLUTTER DEVELOPER

Mobile No: 8454904542   **E-mail:** sushant.s.chiplunkar@gmail.com   **Address:** Mumbai, Maharashtra

Date of Birth: 30-01-1991   **LinkedIn:** linkedin.com/in/sushant-chiplunkar   **Portfolio:** https://sushant-dev.onrender.com/

I'm a Senior Flutter Developer with a passion for building reliable mobile apps that solve real business problems. Over the last 9+ years, I've worked across fintech, banking, and enterprise domains, leading teams and mentoring developers while constantly improving performance and code quality.

PROFESSIONAL SUMMARY

Senior Mobile Application Developer with 9+ years of experience, including 4+ years in Flutter and strong expertise in Android (Java/Kotlin).

Proven track record of building secure, scalable, high-performance applications in fintech, banking, e-commerce, and enterprise domains.

Experienced in leading teams, designing clean architectures, and delivering apps that improve stability, performance, and user experience.

Passionate about building reliable mobile products and mentoring developers in Agile environments.

WORK EXPERIENCE

Mahindra Finance Pvt Ltd
Flutter Developer, Sr. developer (Kurla, Mumbai)   (Sep 2024 - Dec 2025)

As a Senior Flutter Developer, took responsibility for designing, developing, and deploying features for a financial mobile application. Played a key role in defining architectural patterns and selecting suitable state management solutions to ensure code maintainability and scalability. Worked collaboratively with backend, QA, and design teams to ensure smooth integration and optimal application performance. Actively mentored junior developers and conducted code reviews to ensure adherence to best practices.

- Led the design and development of a high-performance financial app using Flutter with Bloc/Cubit. Integrated secure APIs, CI/CD pipelines via Jenkins and Firebase App Distribution.
- Improved app stability by 20% through proactive bug fixes and code optimization.

Achievements:
- Successfully delivered a highly performant and scalable financial application, enhancing user experience and streamlining financial operations.
- Improved app stability and reduced crashes by 20% by proactively identifying and resolving bugs.

Winjit Technologies Pvt Ltd
Flutter Developer, Sr. developer (Nashik, Remote)   (Feb 2024 - Sep 2024)

As a Senior Flutter Developer, played a key role in optimizing an existing company product and contributing to the development of a new banking application. Worked closely with the team to translate business requirements into technical solutions, ensuring alignment with project goals and timelines. Took a leadership role in defining the overall architecture of the banking app, prioritizing scalability, maintainability, and security.

- Redesigned architecture for a banking app with a focus on scalability and security.
- Optimized rendering performance and reduced widget rebuilds. Played a key role in defining coding standards and scalable architecture.
